REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 1-19 are allowable over the prior art because the prior art does not disclose or suggest: a control unit operatively associated with a command module and with a voltmeter and which is operated according to a sequence of tests that are selectively activated to receive from the voltmeter the values of a first voltage and of each second voltage and to process these values, indicating in an interface the existence of failure in at least one of a plurality of elements defined by the command module, switches and respective electronic controls thereof, the existence of a failure being indicated in case any second voltage presents a value that is equal to or higher than that of the first voltage.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
